

VINCE JOSHUA SENON

DATA ANALYST

+63 960 256 2865 | iamvjsenon@gmail.com | Olongapo City, Zambales

linkedin.com/in/vincesenon | vince-senon.github.io/myPortfolio

Data Analyst with 3+ years of experience in workforce analytics and financial research, turning complex datasets into decisions that drive strategy. Reduced manual reporting time by 30% through automation at Buwelo, and currently supporting investment research across venture capital and private equity at Straive. Skilled in SQL, Python, and Tableau, with a software development background bridging data and engineering teams.

WORK EXPERIENCE

SUBJECT MATTER RESEARCHER | SEP 2025 - PRESENT

STRAIVE - FINANCIAL SERVICES & RESEARCH ANALYTICS

- Extracted and validated 100+ deals daily from news articles and financial publications, reconciling data across multiple sources for accurate investor and fund records.
- Researched and structured end-to-end company intelligence profiles – from legal names, founding details, and contact information to deal histories, transaction amounts, and exit types – across venture capital and private equity deals.

DATA ANALYST | MAY 2023 - SEP 2025

BUWELO - WORKFORCE

- Managed staffing analytics for 100+ BPO agents, tracking headcount trends and identifying workforce risks to support operational planning.
- Developed KPI reports flagging performance outliers and automated recurring dashboards, reducing manual reporting time by 30%.

APPLICATION DEVELOPMENT ASSOCIATE | JUN 2021 - JUL 2022

ACCENTURE

- Supported front-end development and database enhancements for an enterprise application within a 12-person team, improving User Interface (UI) and reducing page load times, while collaborating with senior developers to produce clean, maintainable code.
- Contributed to Agile/Scrum workflows, participated in code reviews, and resolved bugs to ensure timely and stable feature delivery.
